ABOUT GOLF4KIDS

One cause in particular truly defines the passion and depth of commitment for the members of the Rotary Club of Sacramento. For over 100 years, the club has provided consistent support to children with disabilities in the Sacramento area. Golf 4 Kids continues to be a major funding source, providing approximately $40,000 in support each year for programs at local schools, and non-profits within the community with a similar focus on positively impacting children of similar circumstance.

Rotary funds have provided a variety of improvements such as specialized computers, keyboards, and communication devices. In recent years there has been a significant need for wheelchairs of various types.
